## Dessau Summer School of Architecture

Anhalt University of Applied Sciences • Dessau-Roßlau

## Overview

Course location	Dessau-Roßlau
Teaching language	<ul style="list-style-type: none"><li>English</li></ul>
Language level of course	<ul style="list-style-type: none"><li>English: B2</li></ul>
Date(s)	<ul style="list-style-type: none"><li>3 June - 12 July 2024 (Registration deadline of course provider: 29 February 2024)</li></ul>
Target group	Students of architecture, interior design, and related subjects
Description/content	<p>Dessau Summer School of Architecture develops its thematic focus from the relevance of Bauhaus Dessau in the history of architecture. Parts of the course are conducted within Bauhaus Dessau. At Dessau Summer School of Architecture, participants from different nations enter into an architectural dialogue on a review of modernity in architecture. To this purpose, the components of the programme place current developments in architecture and design in relation to the history of modernity and to its evidence on site.</p> <p>Dessau Summer School of Architecture starts, in cooperation with Bauhaus Dessau Foundation, with a workshop on "Bauhaus Callisthenics". The subsequent studio project is developed from this basis and focuses on social, ecological, and sustainable strategies of building. The current programme is available at <a href="https://dessarc.de/">https://dessarc.de/</a> from December 2023.</p> <p>The subjects "Art Class", "Architecture and Society", the "German Language Class", excursions to historic and new locations of Modern Architecture in the region and trips to Berlin, Frankfurt and Leipzig develop and deepen this focal point.</p>

## Course details

# Anhalt University of Applied Sciences

With its sites at Bernburg, Dessau, and Köthen, Anhalt University of Applied Sciences can call upon proud traditions in science, innovation, and cultural cosmopolitanism. These traditions guide us in research and teaching. Anhalt University of Applied Sciences has established close links with both national and international research institutions and partners in industry. New forms of teaching, small study groups, and excellent research offer ideal conditions for a good start to a career either at home or abroad.

## University location

Dessau was first mentioned in 1213. During the period of Enlightenment, the famous Dessau-Woerlitz gardens were created. In 1774, Basedow established the well-known "Philantropinum" - a reformed public school. In 1919, Hugo Junkers developed and built the first metal aeroplane in the world. The world-renowned "Bauhaus" moved from Weimar to Dessau in 1925. Six years later, the Nazis forced its closure. Today, Walter Gropius' Bauhaus Building in Dessau is a long-established icon of Modernism.
